Every Child Counts!

It's time to raise awareness about child abuse and exploitation and create strong communities to support children and family.

8 Ways to Help Prevent Child Abuse

Be a nurturing parent

Children need to know that they are special, loved and capable of following their dreams.

Help a friend, neighbor or relative

Being a parent isn't easy. Offer a helping hand to take care of the children, so the parents can rest or spend time together.

Help yourself

When the big and little problems of your everyday life pile up to the point you feel overwhelmed and out of control, take time out. Don't take it out on your kid.

If your baby cries

It can be frustrating to hear your baby cry. Learn what to do if your baby won't stop crying.

Educate Yourself and Prevent Child Abuse!

By educating yourself, and others, you can help your community prevent child abuse and neglect from happening in the first place.

Get involved

Ask your community leaders, clergy, library and schools to develop services to meet the needs of healthy children and families.

Report suspected abuse or neglect

If you have reason to believe a child has been or may be harmed, call your installation Family Advocacy Office and child protective services or your local police.

Promote programs in school

Teaching children, parents and teachers prevention strategies can help to keep children safe.
